To be a great project manager you must have courage, because you have many decisions to make about plans, processes, and people on a daily basis. Courage is the backbone of leadership, and values secure this backbone in place. To develop the courage to lead, you must have a framework with which to analyze value.

Project management

In fact, it is not enough to simply follow orders from management. The company expects its employees to act with courage in many circumstances. However, it is not a question of taking unconsidered risks. The authors of "The Courage to Act" have highlighted various domains in which courage is critical to performance. 1.
